EAST END

SHOWING OF CAS IN SHALLOW WELL

BURNED STRONGLY WHEN THE TORCH WAS APPLIED.

Interest in East End Oil Development Revived and Tests Will Be Made.

Considerable excitement has prevailed among the people of the East End over the showing of oil and gas in a water well being drilled on the property of U. E. Price, a short distance north of Pennsylvania avenue. Gas was encountered yesterday when the hole had reached a depth of 54 feet and there was a strong showing of oil, so strong that the water has so far been unfit for use.

The drillers applied a torch to the ed oil men, whose attention have been sprang up and continued to burn until the well was closed. Later the well was pumped and the water was found to carry a considerable quantity of

The well was drilled to its present depth through almost solid rock and great difficulty was encountered most of the distance as the drilling machinery was not heavy enough to cope with the solid substance. Experienced oil men, who attention have been called to the find, are nonplussed. They state that it is unusual that oil or gas should be found at such a shallow depth and in their opinion it is only a "pocket." Gas has been encountered in the clay mines in the vicinity and has given the workmen a great deal of trouble.

It will be remembered that a paying gas well was found on the Thompson property, adjoining the Midway Land company's addition, south of Mulberry street, more than 20 years ago. There was also a strong showing of oil. The Thompson Pottery constructed a gas main from the well to its plant and until the advent of the big gas companies used its product in the manufacture of pottery. The line was not kept up but the well is still producing both oil and gas. This hole is between five and six hundred feet deep. Several other holes were put down in the neighborhood but all proved to be

Many people are confident that both these natural products exist in pay ing quantities in the East End districts and the Price well has served to revive interest in the matter. It is probable that several test holes, which have been under consideration for some time, will be drilled in the near future.

They have been carrying on in a most disgusting way, making life miserable for Mr. and Mrs. Sells, who bore it all without a murmur. The youngsters also tried to pursuade their young son to engage in their practices.

A relative of the Sells' discovered what was going on and immediately appealed to Captain Terrence. Officer Fisher was notified and his investiga tion disclosed the names of most of the culprits. No arrests will be made unless their obnoxious actions con

For eight innings the Wellsville aggregation found it difficult to kee within hailing distance of the Crock ery City boys and all enthusiasm had died when the latter half of the nint was called. Though they had faile to land on Lawrence effectively unti that time they got their batting rags on and pounded him unmercifully

The score was 8 to 4 and it was the last chance. That they took advantage Mountford, c 0 3 10 1 is evidenced by the increase of runs. One terrible inning gave the game to the locals. Though only one hit was scored they scrambled over the goal five times and made their opponents real sick. After such a streak it is wonderful that they ever recovered. Bib Webb, playing at second for Wellsville, stood like a sphinx and let two go through his legs and undoubtedly lost the game. He confused everybody else and until Capt. Miss Nettie Blackmore, Minneapolis, tells how any young woman may be permanently cured of monthly pains by taking Lydia E. Pinkham's Vegetable Compound.

"Young Women: - I had frequent headaches of a severe nature, dark spots before my eyes, and at my menstrual periods I suffered untold agony. A member of the lodge advised me to try Lydia E. Pinkham's Vegetable Compound, but I only scorned good advice and feit that my case was hopeless, but she kept at me until I bought a bottle and started taking it. I soon had the best reason in the world to change my opinion of the medicine, as each day my health improved, and finally I was entirely without pain at my menstruation periods. I am most grateful."—NETTIE BLACKMORE, 28 Central Ave., Minneapolis, Minn.

Painful Periods

re quickly and permanently overcome by Lydia E. Pinkham's Vegetable Compound. The above letter is only one of hundreds of thousands which prove this statement to be a fact. Menstruation is a severe strain on a woman's vitality,—if it is painful something is wrong. Don't take narcotics to deaden the pain, but remove the cause—perhaps it is caused by irregularity or womb displacements, or the development of a tumor. Whatever it is, Lydia E. Pinkham's Vegetable Compound is guaranteed to cure it.

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

Details of Another Case. "DEAR MRS. PINKHAM: - Ignorance and carelessness is the cause of most of the suffer ings of women. I believe that if we properly understood the laws of health we would all be well, but if the sick women only knew the truth about Lydia E. Pinkham's Vegetable Compound, they would be saved much suffering and would soon be cured.

"I used it for five months for a local difficulty which had troubled me for years, and for which I had spent hundreds of dollars in the vain endeavor to rectify. My life forces were being sapped, and I was daily losing my vitality.
"Lydia E. Pinkham's Vegetable

Compound cured me completely, and I am now enjoying the best of health, and am most grateful, and only too pleased to endorse such a great remedy."—Miss Jennie L. Edwards, ber one shall be \$925.00) and number-604 H St., N. W., Washington, D. C.

I had two of our best physicians in attendance, two of our best physicians in attendance, took all the advertised remedies for troubles of this kind but got no help whatever until I took Dr. Miles' Restorative Nervine. Six bottles restored me to health; I am better than for years; in fact am entirely relieved. I can say with a clear conscience that it was Dr. Miles' Restorative Nervine that restored me to health. When the pains of sciatica and rheumatism were most severe I secured almost immediate relief by the use of Dr. Miles' Anti-Pain Pills. We never advertise to sell one thing and then when you call try to sell you something else. We advertise to sell some goods at cost, and, when we do, we sell them at cost. We never misrepresent goods sold by us. We sell wool for wool, and cotton for cotton. We don't try to make you believe everything you buy from us is sold to you below cost. It will be an unfortunate thing for East Liverpool if the natural gas trust which has now got its grip on the property formerly known as the Ohio Valley Gas company plant succeeds also in getting a grip upon the people of the city and bleeding them for an advance of 25 per cent on each succeeding gas bill. East Liverpool owes no small measure of her prosperity to the fact that natural gas has been in the past reasonably cheap and abundant. It is now proposed to put it in the category of luxuries. Manufacturers and private consumers will protest, as they have a right to do. A vigorous fight should be started at once, and it is to be hoped that it will be found that the city, when it granted the franchise under which the gas

company is now operating, did its vork properly and left no loophole through which the greedy corporation an crawl out of the agreement not to advance rates unreasonably. East Livrpool must fight for her rights, and the gas company, having now proposed to give the city one of the hardest blows ever struck it, should be treated as an enemy and given no quarter until it is willing to suspend hostilities and return to the old order of things.

Scranton, Pa. June 22.—A pair of young lovers, Einst Schmie and Miss Jennie Brennan, both of Greenwood, Invites Business and were the participants in a double tragedy which resulted in the former's death and will probably also prove

fatal in the case of the girl. The two had loved each other devotedly for several months, but another woman from Schmic's old home intervened a week ago and sought to hold him to an alleged engagement with her. This led the pair to seek relief in death. Miss Brennan purchased a bottle of carbolic acid and both started out for a walk, spending Main and 18th Sts. Wellsville. They All

When the party came in sight of the pair Miss Brennan put the bottle of acid to her lips and drank it. As she did so Schmic started to run, with several of the party close on his heels. He drew a revolver and fired upon them three times, and then stopping, turned the weapon to his heart and shot himse'f twice. He fell dead instantly. The girl suffered great agony and her re covery is doubtful.

SHOWING OF CAS IN SHALLOW WELL

BURNED STRONGLY WHEN THE TORCH WAS APPLIED.

Interest in East End Oil Development Revived and Tests Will Be Made.

Considerable excitement has prevailed among the people of the East End over the showing of oil and gas in a water well being drilled on the property of U. E. Price, a short distance north of Pennsylvania avenue. Gas was encountered yesterday when the hole had reached a depth of 54 feet and there was a strong showing of oil, so strong that the water has so far been unfit for use.

The drillers applied a torch to the ed oil men, whose attention have been sprang up and continued to burn until the well was closed. Later the well was pumped and the water was found to carry a considerable quantity of

The well was drilled to its present depth through almost solid rock and great difficulty was encountered most of the distance as the drilling machinery was not heavy enough to cope with the solid substance. Experienced oil men, who attention have been called to the find, are nonplussed. They state that it is unusual that oil or gas should be found at such a shallow depth and in their opinion it is only a "pocket." Gas has been encountered in the clay mines in the vicinity and has given the workmen a great deal of trouble.

It will be remembered that a paying gas well was found on the Thompson property, adjoining the Midway Land company's addition, south of Mulberry street, more than 20 years ago. There was also a strong showing of oil. The Thompson Pottery constructed a gas main from the well to its plant and until the advent of the big gas companies used its product in the manufacture of pottery. The line was not kept up but the well is still producing both oil and gas. This hole is between five and six hundred feet deep. Sev eral other holes were put down in the neighborhood but all proved to be dusters.

Many people are confident that both these natural products exist in pay ing quantities in the East End districts and the Price well has served to revive interest in the matter. It is probable day. that several test holes, which have been under consideration for some visiting the family of Rev. J. W. How

The youngsters also tried to pursuade their young son to engage in their practices.

A relative of the Sells' discovered what was going on and immediately appealed to Captain Terrence. Office Fisher was notified and his investiga tion disclosed the names of most of the culprits. No arrests will be made unless their obnoxious actions con

Walter Wellman, the well known authority on political subjects and one of the ablest writers of the day, acts in that capacity.

Mr. Wellman was born in Mentor, O. November 3, 1858. At the age of 14 he began his newspaper experience, establishing at that age a weekly paper in the little town of Sutton, Neb. In 1878 he returned to Ohio, and a year later established the Cincinnati Evening Post. In 1884 he became the Washington correspondent of the Chicago Herald, and in 1892 he visited Central America and the West Indies, and located the landing place of Columbus on Watling's (San Salvador) Island, and marked the spot with a huge stone By enabling the digestive organs to 177-2; residence 177-3. the north pole are well known. The finish was the prettiest part of the contest and for about three minutes there was a great possibility of the game going the other

For eight innings the Wellsville aggregation found it difficult to keep within hailing distance of the Crockery City boys and all enthusiasm had died when the latter half of the ninth was called. Though they had failed to land on Lawrence effectively unti that time they got their batting rag on and pounded him unmercifully

The score was 8 to 4 and it was the last chance. That they took advantage is evidenced by the increase of runs Four hits, a wild throw or two and an error or so gave them three more runs and came mighty close to giving them the decision. If Fred Hecka thorn had done as he used to do when with his home players, all would have been well. It was up to him to save the necks of his team and he-simply didn't do it. One terrible inning gave the game to the locals. Though only one hit was scored they scrambled over the goal five times and made their opponents real sick. After such a streak it is wonderful that they ever recovered. Bib Webb, playing at second for Wellsville, stood like a sphinx and let two go through his legs and undoubtedly lost the game. He confused everybody else and until Capt. Patterson ordered him to the bench and replaced him with John Heckathorn they remained in the air. Gold Find in Siberia. Tomsk, West Siberia, June 20.-A gold reef seven feet wide has been discovered in the forests bordering the river Parikule. The trial workings yielded 6 to 14 pounds of pure gold for every 400 pounds of material

Miss Nettie Blackmore, Minneapolis, tells how any young woman may be permanently cured of monthly pains by taking Lydia E. Pinkham's Vegetable Compound.

"Young Women: - I had frequent headaches of a severe nature, dark spots before my eyes, and at my menstrual periods I suffered untold agony. A member of the lodge advised me to try Lydia E. Pinkham's Vegetable Compound, but I only scorned good advice and fert that my case was hopeless, but she kept at me until I bought a bottle and started taking it. I soon had the best reason in the world to change my opinion of the medicine, as each day my health improved, and finally I was entirely without pain at my menstruation periods. I am most grateful."- NETTIE BLACKMORE, 28 Central Ave., Minneapolis, Minn.

Painful Periods

are quickly and permanently overcome by Lydia E. Pinkham's Vegetable Compound. The above letter is only one of hundreds of thousands which prove this statement to be a fact. Menstruation is a severe strain on a woman's vitality,—if it is painful something is wrong. Don't take narcotics to deaden the pain, but remove the cause—perhaps it is caused by irregularity or womb displacements, or the development of a tumor. Whatever it is, Lydia E. Pinkham's Vegetable Compound is guaranteed to cure it.

If there is anything about your case about which you would like special

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

Details of Another Case.

"DEAR MRS. PINKHAM: - Ignorance and carelessness is the cause of most of the suffer ings of women. I believe that if we properly understood the laws of health we would all be well, but if the sick women only knew the truth about Lydia E. Pinkham's Vegetable Compound, they would be saved much suffering and would soon be cured.

"I used it for five months for a local difficulty which had troubled me for years, and for which I had spent hundreds of dollars in the vain endeavor to rectify. My life forces were being sapped, and I was daily losing my vitality.

"Lydia E. Pinkham's Vegetable Compound cured me completely, and now enjoying the best of health, and am most grateful, and only

ed to endorse such a great remedy." — MISS JENNIE L. EDWARDS, 604 H St., N. W., Washington, D. C.

Mrs. Pinkham, whose address is Lynn, Mass., will answer cheerfully and without cost all letters addressed to her by sick women.

Manager Norris announces the ap pearance here next season of Mary Emerson, one of the youngest stars. Miss Emerson is an actress of wide experience. This was but a few years since. Then followed two seasons with Richard Mansfield. SHOWING OF CAS IN SHALLOW WELL

BURNED STRONGLY WHEN THE TORCH WAS APPLIED.

Interest in East End Oil Development Revived and Tests Will Be Made.

Considerable excitement has prevailed among the people of the East End over the showing of oil and gas in a water well being drilled on the property of U. E. Price, a short distance north of Pennsylvania avenue. Gas was encountered yesterday when the hole had reached a depth of 54 feet and there was a strong showing of oil, so strong that the water has so far been unfit for use.

The drillers applied a torch to the ed oil men, whose attention have been sprang up and continued to burn until the well was closed. Later the well was pumped and the water was found to carry a considerable quantity of

The well was drilled to its present depth through almost solid rock and great difficulty was encountered most of the distance as the drilling machinery was not heavy enough to cope with the solid substance. Experienced oil men, who attention have been called to the find, are nonplussed. They state that it is unusual that oil or gas should be found at such a shallow depth and in their opinion it is only a "pocket." Gas has been encountered in the clay mines in the vicinity and has given the workmen a great deal of trouble.

It will be remembered that a paying gas well was found on the Thompson property, adjoining the Midway Land company's addition, south of Mulberry street, more than 20 years ago. There was also a strong showing of oil. The Thompson Pottery constructed a gas main from the well to its plant and until the advent of the big gas companies used its product in the manufacture of pottery. The line was not kept up but the well is still producing both oil and gas. This hole is between five and six hundred feet deep. Several other holes were put down in the neighborhood but all proved to be dusters.

Many people are confident that both these natural products exist in paying quantities in the East End districts and the Price well has served to revive returned to her home in Scio yester interest in the matter. It is probable day. that several test holes, which have been under consideration for some time, will be drilled in the near future. ard, of Chafinville, returned to her

The youngsters also tried to pursuade their young son to engage in their practices.

A relative of the Sells' discovered what was going on and immediately appealed to Captain Terrence. Officer Fisher was notified and his investigation disclosed the names of most o the culprits. No arrests will be made unless their obnoxious actions con-

it three straight by winning yester- score: day afternoon at Central park, Wells ville, in one of the warmest games ever witnessed in the sister city, by a score of 8 to 7. The finish was the prettiest part of the contest and for about three minutes there was a grea possibility of the game going the othe way.

For eight innings the Wellsville aggregation found it difficult to keep within hailing distance of the Crock ery City boys and all enthusiasm had died when the latter half of the nintl was called. Though they had faile to land on Lawrence effectively unti that time they got their batting rag on and pounded him unmercifully

The score was 8 to 4 and it was th last chance. That they took advantage is evidenced by the increase of runs Four hits, a wild throw or two an an error or so gave them three more runs and came mighty close to givin them the decision. If Fred Hecks thorn had done as he used to do whe with his home players, all would have been well. It was up to him to save the necks of his team and he-simply didn't do it. There were two men on bases, Murphy at third just aching to get over the plate and John Heckathorn trying to touch third. A little Jones. hit would have cinched the result and Wellsville would have had a chance to tie the series this evening.

One terrible inning gave the game to the locals. Though only one hit was scored they scrambled over the goal five times and made their opponents real sick. After such a streak it is wonderful that they ever recovered. Bib Webb, playing at second for Wellsville, stood like a sphinx and let two go through his legs and undoubtedly lost the game. Menstruation is a severe strain on a woman's vitality,—if it is painful something is wrong. Don't take narcotics to deaden the pain, but remove the cause—perhaps it is caused by frregularity or womb displacements, or the development of a tumor. Whatever it is, Lydia E. Mary Emerson Is Coming.

Manager Norris announces the appearance here next season of Mary Emerson, one of the youngest stars. Miss Emerson is an actress of wide experience. Studying first for the concert stage, she soon gave that up, as the field was too narrow. Her second season on the dramatic stage found her Louis James' leading woman. This was but a few years since. Then followed two seasons with Richard Mansfield. Mr. Lewis, who will manage Miss Emerson's tour, will doubtless be remembered by many for his performances here while a member of Miss Mildred Holland's company for the past two seasons.
